	Urgent	**Not Urgent**
Important	**Do - (Your MVP)** ● Picker for (a short spectrum of) enjoyed titles, genres, and criteria ● Generate a ranked list of recommendations from a predefined list of media	**Schedule - (For V2.0+)** ● Implement machine learning for better recommendations off of user feedback ● Profiles to save ratings and preferences ● Easier, chatbot-like searches (typing “something similar to ‘Breaking bad’”) ● Automatic expansion of the media database
Not Important	**Delegate - (Use a library)** ● Use a sorting algorithm of some sort or a Java sorting utility to rank recommendations ● Use a JSON parsing library to load media information	**Delete - (Cut it)** ● A social system to share recommendations and follow friends ● Links to download or stream the media ● Tracking of trending media
